Augusta Regional Airport has Best Year Ever!

Augusta, Georgia, January 17, 2013 — Passengers continued support of the Augusta Regional Airport (AGS) contributes to another record breaking year in 2012! A total of 556,028 passengers traveled through AGS in 2012 which broke 2011's record by 14,185 people. Overall airport traffic has increased 102% since 2006.

Augusta Regional Airport continues to see an influx of passengers year after year due to the recent addition of main line service from Delta, extremely low fares set by the airlines for Augusta and the great reliable service they provide. The direct service to Washington DC has also been highly successful, with enplanement numbers being as high as 79%! As the local community continues to use AGS as their airport of choice, Augusta can expect to see more direct service opportunities in the future.

“With fares remaining extremely competitive and reliability continuing to be very strong at Augusta Regional Airport we look forward to 2013 being another successful year for AGS,” said Gary LeTellier, Executive Director. “The low fares, great service and convenience of AGS provide area residents with strong reasons to fly from Augusta.”
